SKILLS

Languages – JavaScript / ES6, HTML / HTML5, CSS / CSS3 | **Libraries and Frameworks** – React, Node.js, Express.js

Database - MongoDB, Mongoose | **Other** - RESTful Routes, RESTful API, JSON, Git/GitHub (version control), Figma

SOFTWARE DEVELOPMENT PROJECTS

September 2021 - Present

Feastr Recipe App

- Created a full-stack CRUD application with RESTful routes that allows users to create, save, share and search recipes
- Managed all front-end development responsibilities from wireframing to rendering all views to optimize user experience
- Utilized HTML, CSS, EJS (Embedded JavaScript) templating language with Node.js / Express.js and partials to render all pages with a mobile-first approach to ensure responsiveness across all devices (mobile, tablet, desktop)
- Effectively collaborated in a cross-functional team and communicated with back-end team members to ensure proper display and rendering of application

The Wandering Wanderlust

- Created a responsive travel application with a mobile-first approach to curate travel destination information for end-users
- Styled web application using HTML, CSS with flexbox and grids and vanilla JavaScript to create an accessible user experience
- Developed hover animations and implemented event listeners and DOM manipulation to render a rich, responsive and interactive environment for external stakeholders
- Made RESTful API fetch calls and requests to Pixabay, Weather and Currency APIs for JSON data to extract up-to-date information for end-users
- Tested and debugged code through testing tools (devTools) to ensure the success of web app deployment

PROFESSIONAL EXPERIENCE

Diamond Inn, General Manager | Los Angeles, CA

July 2018 - Present

- Launched a new sales channel, generating increased daily sales by 30-35%
- Developed a new reporting process to easily locate all sales transactions to increase efficiency from 60 to less than 15 minutes
- Implemented scalable payroll system improvements, yielding in reduced time spent by 6-8 hours
- Manage property exceeding \$1MM in sales from system management to end-user relations

VICE Media, Consumer Insights Manager | Brooklyn, NY

July 2017 – June 2018

- Managed testing performance of survey links to ensure proper implementation of queries and responses in database before deployment
- Analyzed and developed competitive analysis reports to deliver compelling consumer insights for external stakeholders to assist in strategic business decision-making
- Developed new processes in collaboration with external clients to align with internal operations and increase overall workflow efficiency, reducing deliverable turnaround time by 2-3 days

EDUCATION

GENERAL ASSEMBLY | REMOTE

Software Engineering Immersive

January 2022 – May 2022 (Expected)

Completing a 12-week software engineering training program focused on full-stack development, coding both front and back-end applications with modern frameworks, libraries and languages.

GENERAL ASSEMBLY | REMOTE

Front End Web Development

September 2021 – November 2021

Completed a 10-week front-end web development program focused on building rich, responsive and interactive websites with industry-standard tools.

UNIVERSITY OF CALIFORNIA, SANTA BARBARA | SANTA BARBARA, CA

Bachelor of Arts in Communication

June 2013
